Subject: Revised Subpart W Preamble and Rule Language
Attachments: EO_12866_Subpart_W_2060_AP2_Rev1.docx

All,

Attached for your review/comment is the revised preamble and rule language for Subpart W. I have responded to about 98% of OMB/NRC comments, the remainder belong to SC&A (for the BID/EIA and they are marked in the margin). There are also a couple of comments marked for OGC review or revision. Additionally, OGC has several interagency comments that still need to be addressed, and the contractor is responsible for revisions to the BID/EIA .

OMB has requested 4 documents related to the rulemaking. I have provided 2, and will provide the other 2 next week when I return to the office. If you have any questions or comments, please let me know. Thanks

Reid
